Career Objective

- To start my career in a reputed IT organization where I can use my academic knowledge and technical skills. I want to gain practical experience, learn new technologies, improve my problem-solving skills, and contribute to the growth of the organization. I aim to develop my skills continuously and build a successful career in the IT field.

Educational Qualification

Course	Institution	Year of Passing	Per/CGPA
SSLC	MPS, Harihara	2021	86.08
PUC	Manyatha pu college, Harihara	2023	80
BE	BCE, Shravanabelagola	2027	8.6

Technical Skills

- Programming languages: Python , C , Java.
- Database Package: MySQL.
- Office Package: MS Office (Word, Excel, PowerPoint), Google Workspace.
- Operating Systems: Windows 10/11, Linux (Ubuntu) – Basics.
- Web Technologies: HTML, CSS, JavaScript (Basics).
- Tools & Platforms: Git & GitHub, VS Code, Jupyter Notebook.

Achievements

- **NPTEL Elite Certification in** Introduction to IOT (IIT Kharagpur) – Scored 66% - Top 15% of all certified candidates.
- Successfully completed academic projects in python and machine learning.
- Developed a Machine Learning-based Waste Segregation project using YOLOv8.
- Developed AI-Based smart agriculture recommendation system.
- Presented academic projects and technical topics during college seminars.

Project Profile

- Machine Learning based on waste segregation.
 - Developed a machine learning-based system to identify and classify different types of waste.
 - Used YOLOv8 and computer vision for real-time waste detection and classification.

- Prepared and trained the model using a waste image dataset and evaluated its detection performance.
- Technologies: Python, YOLOv8, Computer Vision, CNN, OpenCV, Roboflow, Google Colab.
- AI-Based Smart Agriculture Recommendation System.
 - Developed an AI-based system to recommend suitable crops based on soil and environmental conditions.
 - Used Machine Learning and Python for data analysis, model training, and crop prediction.
 - Considered parameters such as Nitrogen (N), Phosphorus (P), Potassium (K), pH, temperature, humidity, and rainfall.
 - Technologies: Python, Machine Learning, Pandas, NumPy, Scikit-learn, Google Colab.

Personal Skills

- Quick Learner – Able to learn new concepts and technologies quickly.
- Time Management – Able to manage tasks and complete work within deadlines.
- Hardworking – Dedicated to completing assigned tasks with sincerity and responsibility.
- Self-Motivated – Able to take initiative and stay motivated to achieve goals.
- Positive Attitude – Maintain a positive approach and adapt well to new challenges.

Extracurricular

- Actively participated in team-based college activities.
- Volunteered in college events and programs.
- Participated in Kho-Kho and other sports activities at the college level.

Personal Profile

- Gender: Female
- DOB: 26/03/2005
- Hobbies: Travelling, Listening to music, Solving Puzzles
- Language Known: English, Kannada.

Declaration

- I hereby declare that the information provided in this resume is true and correct to the best of my knowledge and belief.

Place: Bangalore

Date: 26/08/2026
